DETAILED ACTION

Claims 1, 2, 4-10, 12-18 and 20-24 are pending in this application. Claims 1, 9 and 17 are independent claims.

The present title of the invention is "Fast Text/Graphics Resolution Improvement with Chain-Code Table Look-Up".

Allowable Subject Matter

1. Claims 1, 2, 4-10, 12-18 and 20-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Prior art references do not anticipate or suggest the limitation "the tracing comprising searching for and identifying each new pixel in the group with respect to a background pixel near the initial boundary-identified pixel, wherein orientation and order of the searching is with respect to the background pixel during the entire tracing step; parameterizing and smoothing that local boundary segment, resulting in a new local boundary segment, without consideration of non- boundary segment data, by computing instructions for parameterizing and smoothing that local boundary segment" in combination with the other claim limitations in claims 1, 9 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
